

Tabella 1 – Le misure contenute nella proposta di nuovo Regolamento

INTERVENTION AREA	MEASURES INCLUDED IN THE “PREFERRED OPTION”	
Prevention and reuse	M2b	Mandatory target of 5% reduction of packaging waste per capita in 2030 compared to 2018, supplemented with a reduction target for 2035 and 2040
	M1	Update of Essential Requirements to minimize over-packaging
	M5	Minimization of empty space in packaging in selected sectors, incl e-commerce
	M7	Phase out avoidable / unnecessary packaging
	M8b	Mandatory targets to increase the reuse of packaging by 2030/2040 in selected sectors
	M10a	Revision of CEN standard for defining reusable packaging
	M10b	Definitions and mandatory requirements for reusable packaging formats set in EU legislation and standards for some formats
	M10c	Definition and mandatory standards for reuse systems
	M19	Clarification of reuse activity versus a “preparing for reuse” activity
Recyclability and compostability	M21a	All packaging shall be reusable or recyclable by 2030- clarification of Essential Requirements and recyclability definition
	M21b	All reusable packaging must be recyclable as of 2030
	M22a	Qualitative definition of recyclable packaging
	M22b	Definition of recyclable packaging based on design for recycling (DfR) criteria complemented by the recyclability assessment procedure and a negative list of non-recyclable packaging characteristics
	M23	Harmonisation of EPR Fee Modulation Criteria based on recyclability assessment
	M28	Clarification of biodegradability and compostability and updates of respective Essential Requirements & standard EN 13432
	M29d+	Mandatory compostability for certain out of the selected plastics packaging types and requirement of material recyclability for the remaining biodegradable plastic packaging
Recycled content	M35em	High ambition targets for recycled content in plastic packaging based on contact-sensitivity for 2030 and 2040
	M37	Definition of Recycled Content and measurement method
Enabling measures	Ma&b+	Mandatory DRS for plastic bottles and beverage cans (waiver if Member States can prove 90% collections targets achieved by other means) and minimum requirements for all DRS
	M27c-y	Harmonised labelling of products and waste receptacles to facilitate consumers’ sorting
	M12-u	Harmonised, mandatory labelling for reusable packaging
	M38-j	Labelling criteria for Recycled Content
	Mx	Update of current material-based labelling: Removal of alphanumeric codes for waste sorters
	Mk	Restrictions on use of confusing labels
	M31	Update of definitions concerning hazardous substance
	M32a	Expanding the information on hazardous substances
	M32b	Notification of substances of concern in packaging
	M33a	Restrictions of hazardous substances under REACH
	M40b	Minimum GPP criteria for packaging of priority products and services
	M42b	Harmonization of EPR reporting system
	MPCB	Extended reporting obligation on PCB
